

HOT OR NOT

Age rating according to app provider

Hot or Not is an app that has its users rate the 'attractiveness' of the other users based on whatever photos they chose to share. Users then set up their account using photos of themselves. The user must also verify their gender, email address or Facebook account.

The Hot or Not website says it will not accept a profile unless the user is 13 or older. It also states that users from the ages of 13 - 17 can't chat or share photos with users who are older than 17. In saying that, there is no verification process.

Users can then log on to their account to see what other users think of them. If each user rates each other as 'hot' then they are able to send messages to each other within the app. Keeping in mind that there's no guarantee anyone is really who they say they are here.

Remember to talk to your child about which apps are age appropriate for them to use. Be sure to help them understand that other peoples opinions should not define their self-worth as Hot or Not implies, and direct them to more teen-friendly apps.

The Carly Ryan foundation do not recommend this app appropriate for anyone under the age of 17 to use.
